**StoriiCare and Storii**

2.

**Benefits of Using Storii**

3.

**How to get started**

1.

## StoriiCare and Storii

# We care, so we have **Storii**CARE

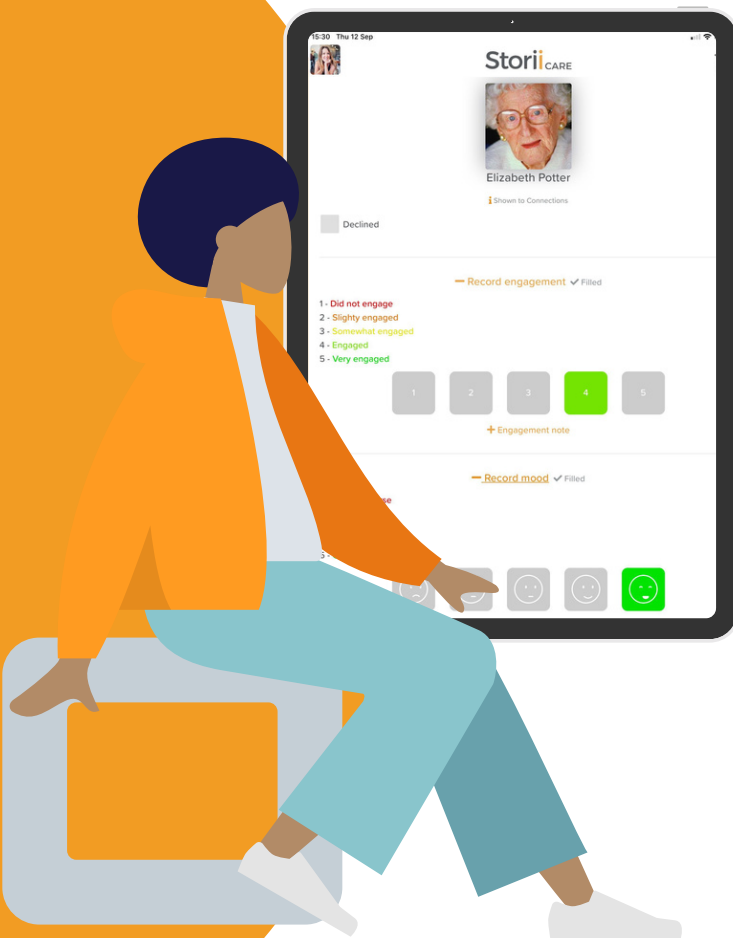

Our community uses StoriiCare, an app-based care planning and activity tracking software platform.

### StoriiCare enables us to

- Easily access important information we need with modern technology at any time
- Update and collaborate on user profiles in real time
- Instantly back up and store information safely onto a secure cloud server
- Provide a higher level of person-centered care

### The reason we really love it?

We spend less time on paperwork and more time caring for your loved ones!

Ask a member of staff on how you can receive updates about your loved one through the Storii Family App - StoriiCare's offering for family members to stay connected.

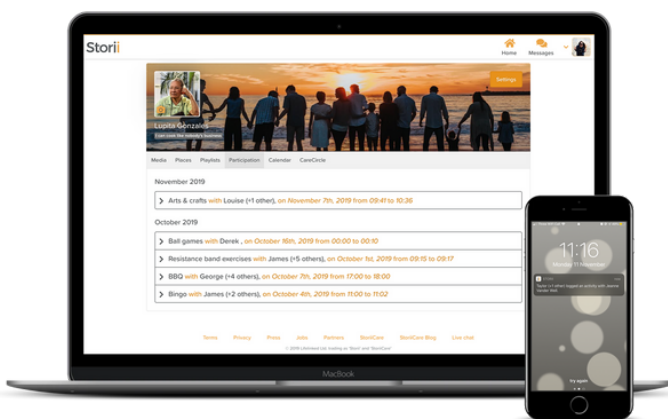

# SHARING. CARING. CONNECTED.

A higher level of connection for  
family + friends

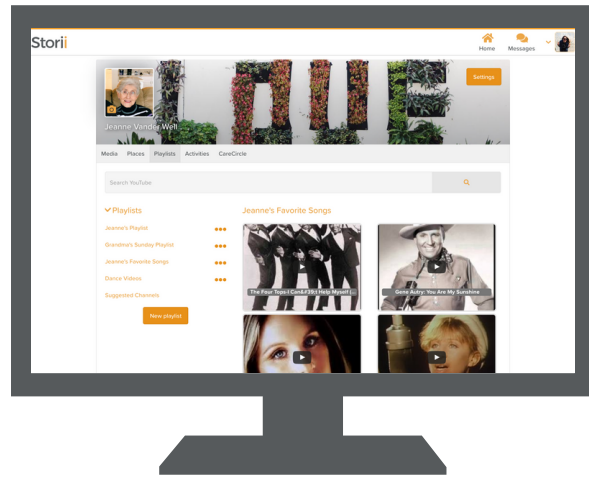

Our community offers Storii Family - a sister platform to our Electronic Health Record, StoriiCare. Storii Family provides up-to-date information about your loved one's activity participation and much more! Storii Family is easily accessible from any smart device via a web browser or our Apps.

Families can see and share photos and videos, view our community calendar, sign up for events, receive updates on their loved one's activity engagement, and message staff. Features available may vary based on care provider settings.

## Storii

DOWNLOAD THE STORII FAMILY APP ON APP STORES OR VISIT OUR WEBSITE [WWW.STORII.COM](http://WWW.STORII.COM)

# It's here!

# THE Storii APP

Storii is accessible by most devices via App Stores or by logging in using a web browser. Friends and family can create a Storii account and use their smartphone, tablet, or computer to:

- Share photos and videos with their loved one
- Upload media for Reminiscence Therapy
- Create and share playlists of songs or videos
- Find, explore, and save significant locations for a trip down memory lane
- Send messages
- View our Activity Calendar & Community Announcements
- See what your loved one has been up to

**Stay connected & create new memories**

## Storii

- ✓ Fully HIPAA-compliant
- ✓ A private network limited to you, your loved one, and their care team
- ✓ Password-protected
- ✓ We can ensure optimal security of our servers using industry standards
- ✓ Your information is never shared with third parties

# 7 WAYS FAMILIES + FRIENDS CAN USE STORII

---

1

## SHARE UPDATES

Want granny to see pictures of your new puppy or send her a video from your recent trek up Machu Picchu? Upload photos or videos to her Storii profile and care staff can show her what's happening in your world!

2

## SPY

Ok, not really. But you CAN view a real-time updated feed of what activities your loved one participated in. You may even see a note written by care staff regarding their mood, engagement, or bingo skills.

3

## MESSAGE

Forgot to tell the nurse something? You can log into Storii on your tablet, smartphone or computer and send an instant message from home, the store, or wherever you are.

4

## REMINISCE

Any photo albums, videos, or playlists uploaded containing content from your relative's life can be accessed and used by staff for reminiscence therapy, in addition to getting to know and care for your loved one better.

5

## MARK A FAVORITE SPOT

With Storii's Places feature, you can search for and save significant locations using Google Street View. Your loved one can virtually take a stroll down memory lane, visiting family vacation spots, homes they used to live in, places they used to work or go to school, etc.

*Storii is a dedicated family app for StoriiCare, a care coordination and activities management software used with the aim of providing your loved one with the highest quality, person-centered care.*

6

## PUT TOGETHER PLAYLISTS

Create playlists of your relative's favorite songs that they can enjoy again and again. Storii safe searches YouTube, so think outside the box. What other playlists would they love? Swing dance videos? Basketball highlights? Old Western movie clips? The possibilities are endless!

7

## VIEW MEDIA

Care staff can upload photos and videos to StoriiCare of the events and activities going on in their facility. As a Connection, you'll be able to see these sweet, picture perfect moments.

## Want to sign up?

Let a member of staff know you'd like to register for a Storii account. Opt to receive a sign up link via text or email and follow the instructions provided.

# How to start using Storii

To connect with your loved ones and start using Storii, you will need to ask your care team to invite you by SMS (Text) or Email - remember to check your email spam inbox.

## CREATE AN ACCOUNT

The process to create an account is simple and fast! By using the link sent by email or SMS you will be able to create your account in a few minutes.

## LOG IN

You can log in using any browser at [www.family.storii.com](http://www.family.storii.com) or via our App accessible on App stores.

## EXPLORE THE PLATFORM

Storii is intuitive and designed to look like a social media interface. Explore the platform by clicking icons and discovering new possibilities.

Storii improves the level of person-centered care provided to your relative by allowing you to connect and contribute to your loved one's secure, online profile.

### **VIEW ACTIVITY PARTICIPATION**

Ever wonder what your loved one is up to? With Storii, you can view an up-to-date record of the activities your loved one participates in on a daily basis. You may even see photos of the event uploaded by care staff.

### **KEEP IN TOUCH**

From anywhere in the world, Storii is key to connecting with your loved one. Send updates, photos of the latest addition to the family, a video from your vacation, or a playlist of clips from their favorite show.

### **CREATE LIFE STORY CONTENT**

Add life story content such as photos, videos and playlists to your loved one's profile. This helps care staff get to know your loved one better and they may use it for beneficial reminiscence therapy.

DOWNLOAD THE STORII FAMILY APP ON APP STORES OR VISIT OUR WEBSITE [WWW.STORII.COM](http://WWW.STORII.COM)

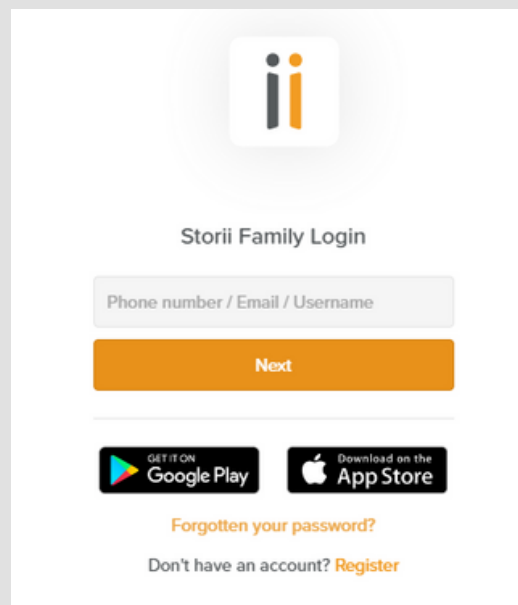

# A STEP BY STEP GUIDE ON HOW TO USE STORII

## 1 CREATE YOUR ACCOUNT

Welcome to Storii! If you have already been invited to a Storii Family account then you will need to click on the invite link you were sent by email or SMS. This is a 'smart' link that will automatically populate some of your information during signup. Complete the required fields to finish the registration process.

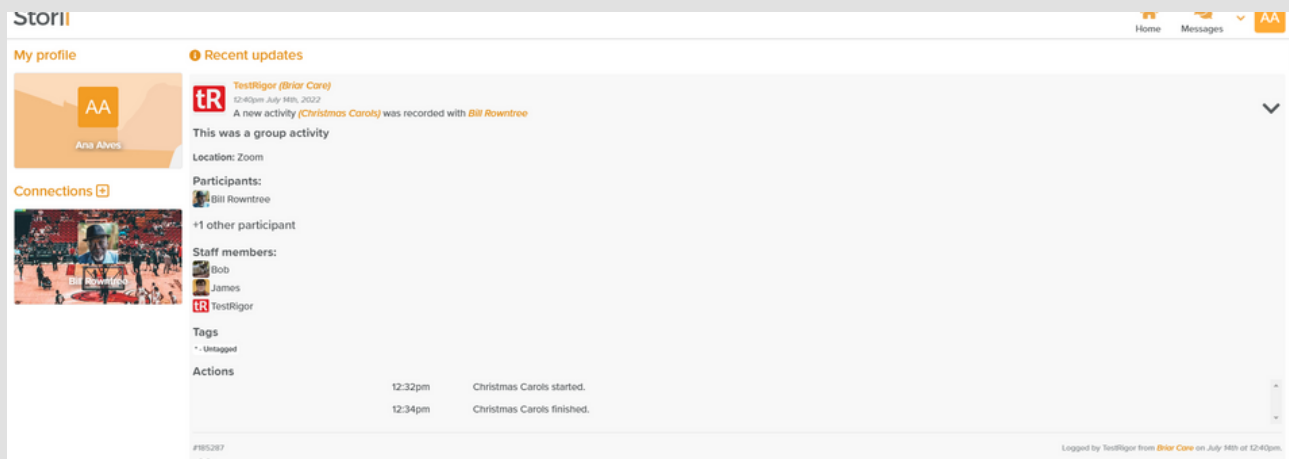

You will then be prompted to log in with the credentials you created. You can login via our Apps, or via the web at [www.family.storii.com](http://www.family.storii.com)

## 2 START TO EXPLORE THE PLATFORM

As soon as you have logged in, you will be presented with the main Storii page, including a feed of recent updates. You will be able to see updates regarding your loved one **from the date of you being connected.**

Connections (your loved ones) are displayed on the left hand side of the page on desktop, and the top of the page on mobile devices.

### 3

## RECENT UPDATES

On the main feed, you may see recent updates relating to your loved one's profile. These updates may include activity participation, community announcements, image updates, playlist updates or life story recordings.

**Recent updates**

♡

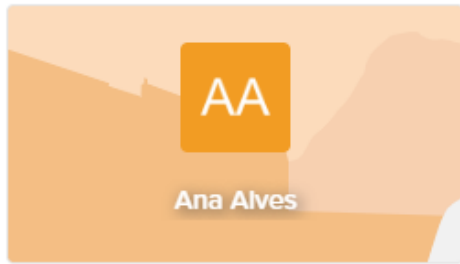

### 4

## INTERACT WITH UPDATES

In addition to viewing updates, you are able to 'like' them to show you are engaged and keeping track of updates.

## My profile

## Connections

## 5

## EXPLORE PROFILES

On the top left side of the page, you will see your own personal profile and below this, the people you are connected to, 'Connections'. You are able to connect with multiple individuals.

It is important to mention that for care staff to see content, you must add it to the respective profile of the individual in care. E.g. To share an image of your loved one with care staff, you must add that image to your loved one's profile, not your own profile.

## 6

## PROFILE OVERVIEW

Once you have entered your loved one's page, a number of feature tabs will be visible. The navigation tabs that appear on the top of the page may vary depending on what care providers enable. The first tab that is opened by default is 'Life Story' - where you have the ability to see answers to life story questions.

The screenshot shows the 'Life Story' profile overview for Bill Rowntree. At the top, there is a large banner image of a basketball court with a crowd. Below the banner is a profile picture of Bill Rowntree and his name, along with a short bio: 'Lifetime mechanic, Miami Heat fan, Family man, Jazz lover.' Below the profile information is a navigation bar with tabs: 'Life Story', 'Media', 'Places', 'Playlists', 'Participation', 'Calendar', and 'CareCircle'. The 'Life Story' tab is selected. Below the navigation bar is the title 'Bill Rowntree's Life Story' and a 'Print' button. A message says: 'Build a life story by answering our curated question list or by creating your own. [Learn more here](#)'. Below this is a link: 'Click here to setup Life Story Calling for Bill'. The main content area displays six life story categories, each with a progress bar: 'My Life' (6/52), 'Family' (2/43), 'Legacy and Ethical Wills' (1/13), 'Education and Career' (0/9), 'Religion and Spirituality' (2/32), and 'Travel' (0/12). Each category has a representative image: a coffee cup, hands holding a photo, a typewriter, a person's face, a wooden cross, and a yellow van on a road.

## 7

## CONTRIBUTE AND LISTEN TO LIFE STORIES

By clicking on Life Story categories, you will open a list of questions that may be answered by your loved ones or by yourself. This is a powerful way to interact with the person you love and contribute to reminiscence activities.

Why were you given your first, middle and last names? rT

---

Do you have a nickname? If yes, what & why? rT

---

What was your first memory?

## 8

## MEDIA

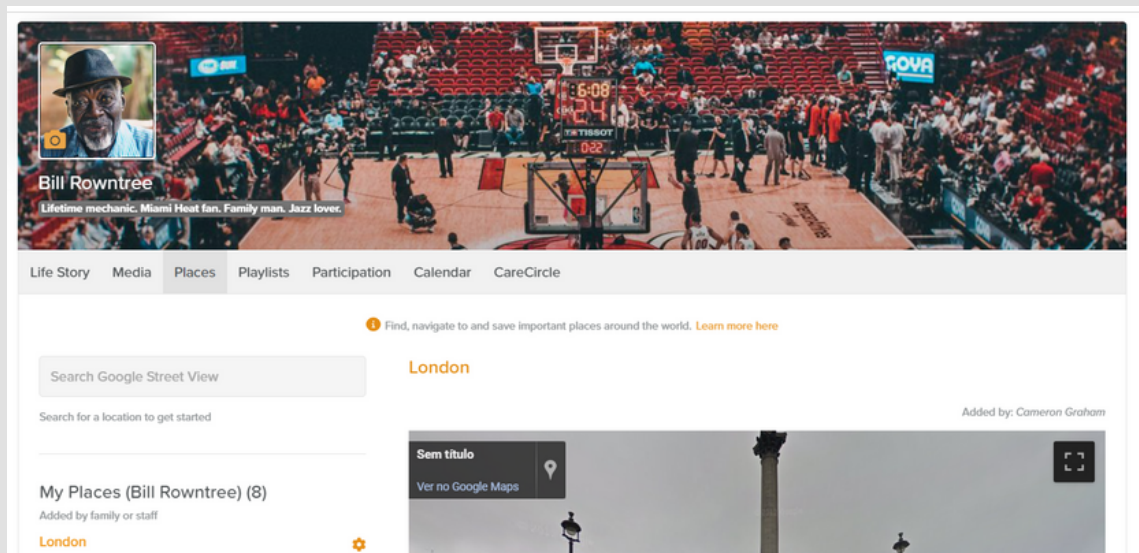

The second tab on the navigation bar is Media. Within this tab you are able to see all media (images videos, audio recordings) that may have been uploaded for your loved one. You can also contribute media by clicking the "Add" button to the right of the page. We recommend you create a folder for yourself to organize pictures you may upload. To do so, you will click on the "Add" button and then select "Folder".

The screenshot displays the 'Media' section of a user profile for Bill Rowntree. At the top, there is a profile picture and a bio: 'Bill Rowntree, Lifetime mechanic, Miami Heat fan, Family man, Jazz lover.' Below this is a navigation bar with tabs: 'Life Story', 'Media', 'Places', 'Playlists', 'Participation', 'Calendar', and 'CareCircle'. The 'Media' tab is selected. A notification icon indicates an action: 'Upload images, videos and more into private, curated folders. Learn more here'. Below the notification, there are three media preview cards. The first is a folder named 'Stori'. The second is a communication and emotions item with a mask icon and text: '...all. He does not require any hearing aids and has complete cognitive understanding.' The third is another folder named 'Stori' with a photo of a woman.

## 9

## PLACES

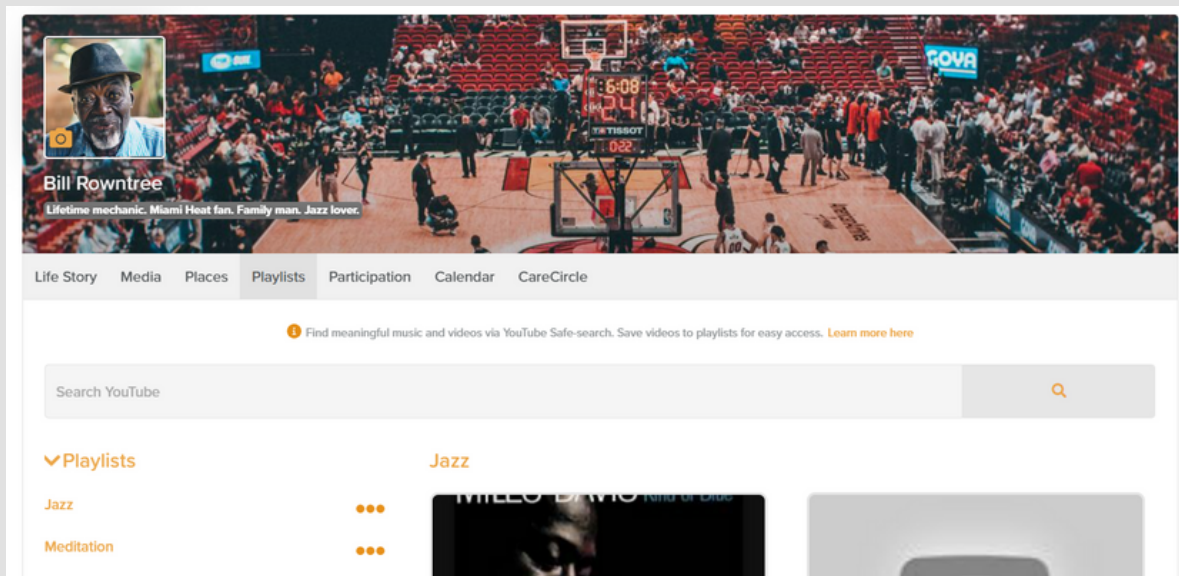

The third tab is Places. This enables you to view and save physical locations around the world via 'Google Streetview'. Recommendations of places to save to a profile include first homes, areas they grew up as a child, favourite locations, famous landmarks and cities visited on vacation.

## 10

## PLAYLISTS

The fourth tab is Playlists. This enables users, through a YouTube connection, to access favorite songs or videos saved by care staff, other connections, or individuals in care themselves.

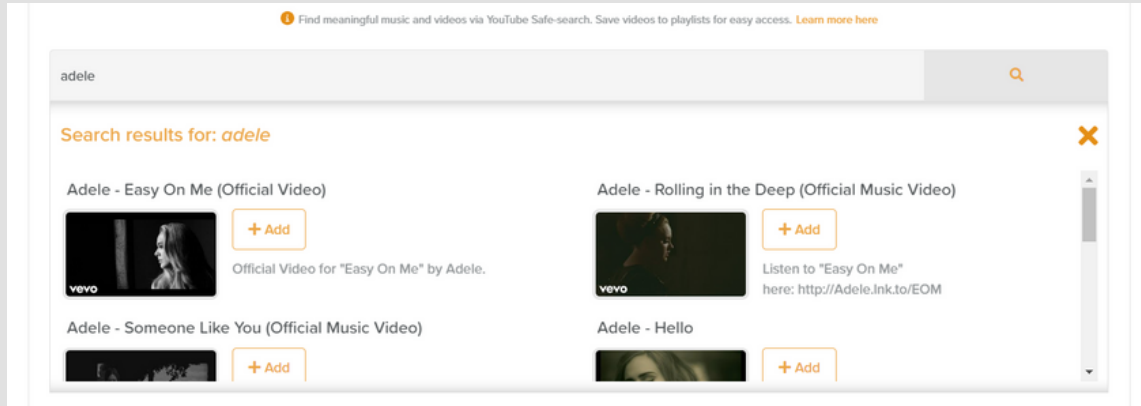

# 11

## ADDING TO A PLAYLIST

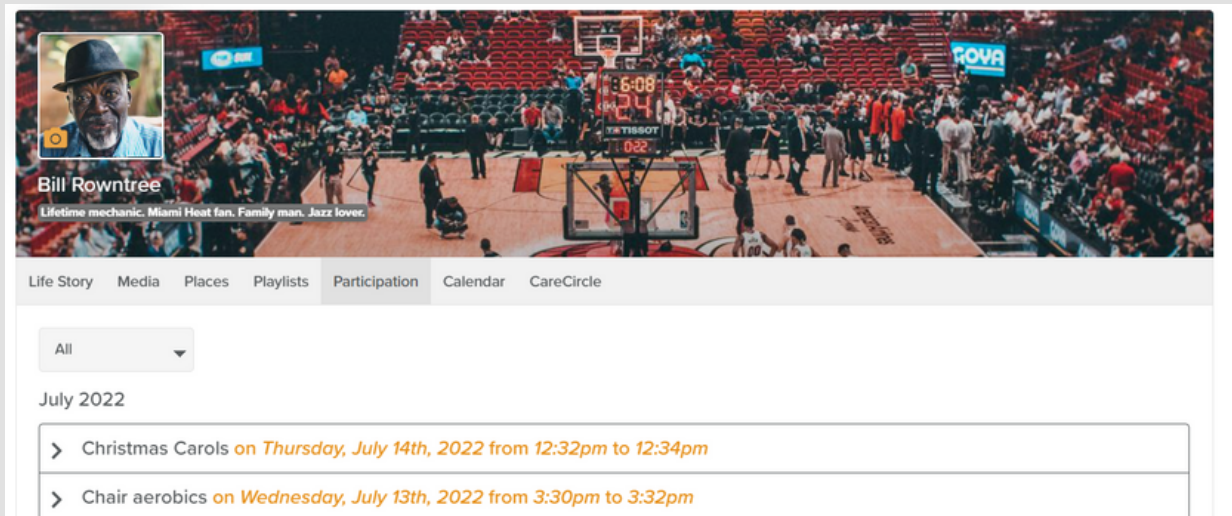

The Playlists search bar is connected to YouTube. By typing the name of a song or an artist, you are able to search for relevant content. You are able to click on the "Add" button to save the song/video to a playlist.

# 12

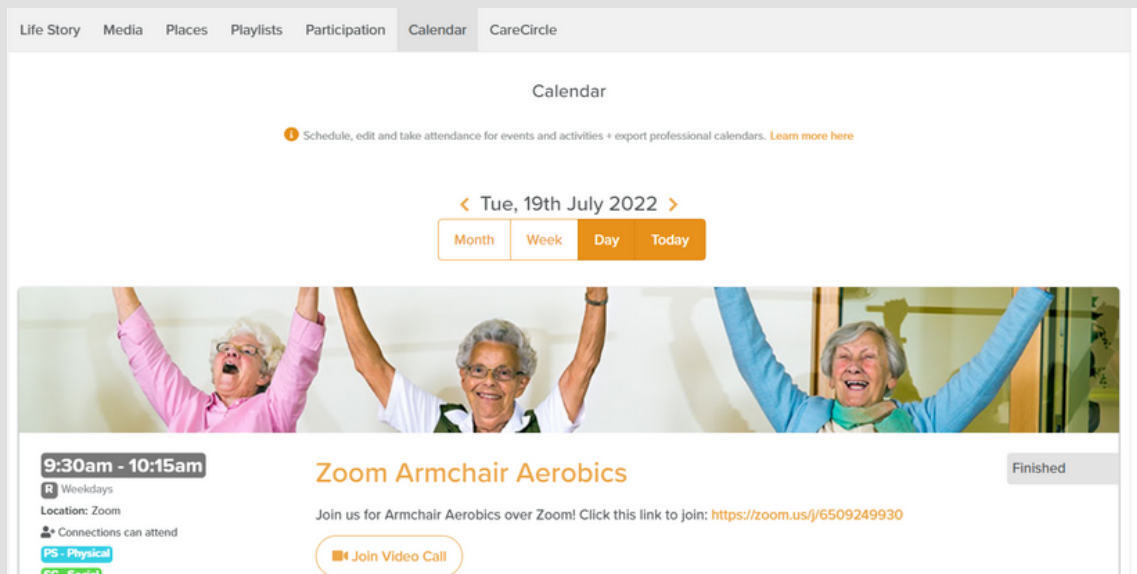

## PARTICIPATION

The fifth tab is participation. This will show a historical list of activities your loved ones has taken part in. By clicking on the name of each activity you are able to view how many people were present in addition to comments relating to your loved ones participation if any have been added.

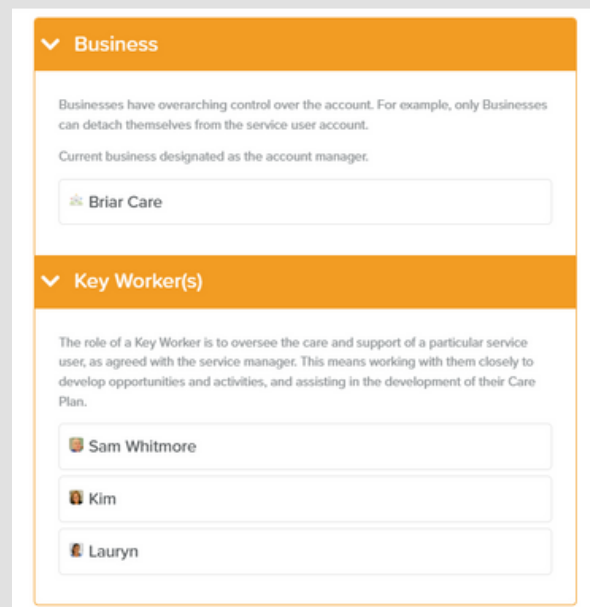

## CALENDAR

The sixth tab is Calendar. The calendar tab allows you to view scheduled activities, events, and appointments created by care providers. Some calendars may not be accessible to all Storii Family users. Some events may allow for Connections to RSVP. Viewing the calendar may be helpful for some families to identify activities or events that they can encourage their loved ones to take part in.

## CARE CIRCLE

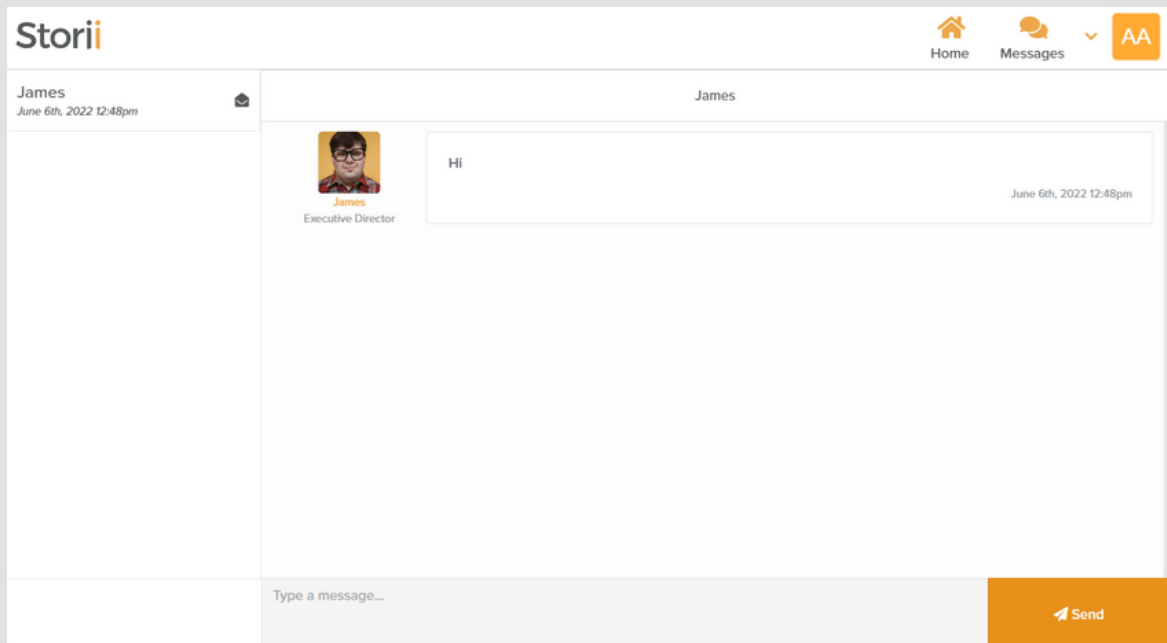

The final tab is the Care Circle. The Care Circle is used by Staff within a business to manage profile access. The Care Circle is also accessible via your own person profile, from which you can invite others via SMS and Email to be a Connection if you wish to connect with other users.

15

## MESSAGES

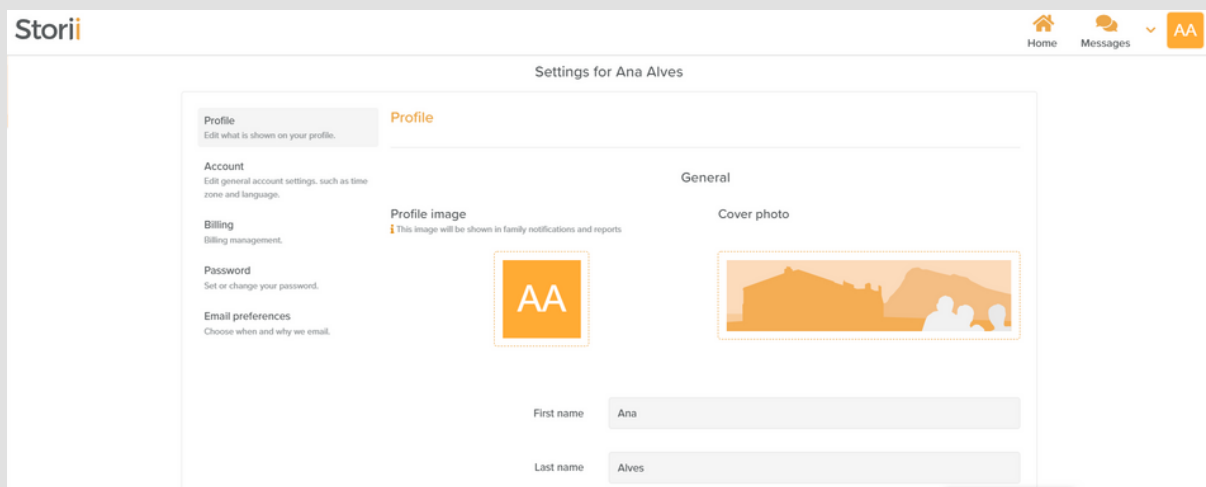

The navigation bar on the top right shows 3 icons: the first one will take you to the Home page with your recent updates feed, the second icon will take you to Messages and the third one to Settings. Within the message feature you are able to respond to any care staff who may have contacted you. You will only see the names of staff members who contact you for data security reasons.

16

## SETTINGS

In the settings area you have the ability to add a custom profile picture and cover photo, in addition to further information such as date of birth and gender.

## YOUR PROFILE

You are welcome to add information, media content and life story answers to your own personal profile. Care Staff will not have any access to your profile data.

The screenshot displays the Storii user profile interface. At the top left is the Storii logo. On the right side of the header are navigation icons for Home, Messages, and a user profile icon labeled 'AA'. Below the header is a large orange banner with a silhouette of a house and mountains. On the left of the banner is a profile picture placeholder with 'AA' and the name 'Ana Alves'. On the right of the banner is a 'Settings' button. Below the banner is a navigation menu with tabs for 'Life Story', 'Media', 'Places', 'Playlists', and 'CareCircle'. The main content area is titled 'Ana Alves's Life Story' and includes a 'Print' button. Below the title is a message: 'Build a life story by answering our curated question list or by creating your own. [Learn more here](#)'. Below this is a link: 'Click here to setup Life Story Calling for Ana'. At the bottom of the page are three image thumbnails: a white mug on a wooden table, hands holding a framed photograph, and a vintage typewriter.
